

## BIG HAIR CONTEST!

Some say it started out of necessity, where women needed a way to keep their hair in place and out of their face on windy days. In reality, the roots of Texas Big Hair began at a time when Texans started buying big Cadillacs, and women had all that head room in the car for their hair, and they used every cubic inch of it.

Texas is THE World Capital of Big Hair!

Big Hair was especially a fashion necessity at any of the major charity events held throughout the state. Women did not spend \$1000s on a dress, shoes, and jewelry for the big party without going to the beauty shop to get their “do” put into curls and piled on top of their head with an eye-dazzling style.

The Texas Motto on Big Hair: “The Higher the Hair, the closer you are to Jesus!”

AND now you are seeing the Man Buns.....

Gals and Guys – start “growing” the hair and wear it for the Big Hair Contest on Wednesday night of the Convention!
