

July 13-17 * 2021

The Golden Glow of Christmas Past * 41ST ANNUAL CONVENTION

Museum Room Electrical Requirements

TERMS & CONDITIONS

ALL EQUIPMENT regardless of source of power must meet federal, state, and local safety codes. The Norfolk Waterside Marriott reserves the right to refuse connection or to disconnect equipment deemed unsafe.

- * You can use your own extension cords and power strips if they meet the following requirements:
- * The equipment must be 3-wire, 14-gauge minimum with a ground, hard serve type. (SO, SWO, SJO, SOOW, SPT)
- * The extension cords and surge protectors must be flat, 12-gauge SPT3 type, if they are to be laid on carpet. (Labor is required to lay the cords.)
- * All cords must be in good condition, with no taped or repaired areas, and must have a ground pin intact.
- * All power strips must have circuit protection.
